§ 382.49 Security screening of passengers.

(a) Qualified individuals with a disability shall undergo security screening in the same manner, and be subject to the same security requirements, as other passengers. Possession by a qualified individual with a disability of an aid used for independent travel shall not subject the person or the aid to special screening procedures if the person using the aid clears the security system without activating it. *Provided*, That this paragraph shall not prohibit security personnel from examining a mobility aid or assistive device which, in their judgment, may conceal a weapon or other prohibited item. Security searches of qualified individuals with a disability whose aids activate the security system shall be conducted in the same manner as for other passengers. Private security screenings shall not be required for qualified individuals with a disability to a greater extent, or for any different reason, than for other passengers.

(b) Except as provided in paragraph

(c) of this section, if a qualified handicapped person requests a private screening in a timely manner, the carrier shall provide it in time for the passenger to enplane.

(c) If a carrier employs technology that can conduct an appropriate screening of a handicapped passenger without necessitating a physical search of the person, the carrier is not required to provide a private screening.

§ 382.51 Communicable diseases.

(a) Except as provided in paragraph (b) of this section, a carrier shall not take any of the following actions, with respect to a person who is otherwise a qualified individual with a disability, on the basis that the individual has a communicable disease or infection:

(1) Refuse to provide transportation to the person;

(2) Require the person to provide a medical certificate; or

(3) Impose on the person any condition, restriction, or requirement not imposed on other passengers.

(b)(1) The carrier may take the actions listed in paragraph (a) of this section with respect to an individual who has a communicable disease or infection only if the individual's condition poses a direct threat to the health or safety of others.

(2) For purposes of this section, a direct threat means a significant risk to the health or safety of others that cannot be eliminated by a modification of policies, practices, or procedures, or by the provision of auxiliary aids or services.

(3) In determining whether an individual poses a direct threat to the health or safety of others, a carrier must make an individualized assessment, based on reasonable judgment that relies on current medical knowledge or on the best available objective evidence, to ascertain: the nature, duration, and severity of the risk; that the potential harm to the health and safety of others will actually occur; and whether reasonable modifications of policies, practices, or procedures will mitigate the risk.

(4) In taking actions authorized under this paragraph, carriers shall select the alternative, consistent with the safety and health of other persons, that is least restrictive from the point of view of the passenger with the communicable disease. For example, the carrier shall not refuse to provide transportation to an individual if provision of a medical certificate or reasonable modifications to practices, policies, or procedures will mitigate the risk of communication of the disease to others to an extent that would permit the individual to travel.

(5) If an action authorized under this paragraph results in the postponement of a passenger's travel, the carrier shall permit the passenger to travel at a later time (up to 90 days from the date of the postponed travel) at the fare that would have applied to the passenger's originally scheduled trip without penalty or, at the passenger's discretion, provide a refund for any unused flights, including return flights.

(6) Upon the passenger's request, the carrier shall provide to the passenger a
